-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

The disclosure is objected to because of the following informalities: on page 5, in line 9, "enlargens" should be "enlarges". Appropriate correction is required.

Drawings

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the energizing of the coils recited in claims 5 and 6 should show lead wires or a lead wire and a grounding pad and some type of generator for energizing or the feature(s) canceled from the claim(s). No new matter should be entered.

Furthermore, it is unclear in Figure 8 where the element no. 52 ends and the element no. 10 begins.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering

Art Unit: 3739

of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

Claim 14 is objected to because of the following informalities: the third line of the claim seems to be a note, not part of the claim. Appropriate correction is required.

Allowable Subject Matter

Claims 1-13 and 15 are allowed. If the first and second lines of claim 14 comprise the entire claim, then claim 14 is also allowable.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bolmsjo (6,119,045) disclose a device for maintaining a passage for urine through the prostate; Gellman (US 2004/0181287) disclose a male urethral stent device; Huxel et al. (US 2002.0177904) disclose a removable stent for body lumens; Cryer (6,280,465) discloses an apparatus for delivering a self-expanding stent on a guide wire; Gunderson (5,776,142) disclose a controllable stent delivery system;

Art Unit: 3739

Brenneman et al. (5,160,341) disclose a resorbable urethral stent and apparatus for its insertion; and Mikus et al. 96,702,846) disclose a urological stent therapy system.
